

MSB Parent Day

To Interested Parents and Guardians:

The Mississippi School for the Blind will be hosting a parent day for all parents and guardians of visually impaired/blind children in the state of Mississippi on February 14th, 2019. This parent day is focused on providing parents further knowledge and information about assistive technology and national, state and local resources available for visually impaired or blind individuals.

The informational sessions begin at 9:30 a.m. and continue through 11:30 a.m. We will have several guest speakers: Allison Paige Pigott, Mississippi Schools for the Blind and the Deaf (MSBD) Special Education Director, followed by the Director of Mississippi Instructional Resource Center (MIRC). In addition, several vendors will be on hand to showcase low vision aids as well as local vendors to answer questions concerning an array of services such as transitional, vocational rehabilitation, and guide dog training.

This day we are also hosting the 2019 MSB Braille Bee which you are welcome to stay to observe Part Two. If you decide to stay, MSB's cafeteria will be open for lunch.

Thank you and we hope to see you there!
